A Fiery Passion for Traditional Crafts

Have you ever seen what a cooper is producing, have you smelled the flavor of bread freshly baked in a wood-fired stove? Do you know how a blacksmith heats the iron until it glows red or how a jar is produced at a potters-wheel? In the pottery you can buy

handcrafted ceramic ware or even try to make pottery yourself. Old crafts are revived during our **daily demonstrations!** Almost forgotten traditional professions and skills are shown in our historic buildings by up to 30 specialists.
